

Clinical Trial Innovations Improve Surgical Outcomes

Are you:

- A surgical trainee or consultant?
- Interested in improving your surgical research?
- Motivated to learn more about the importance and development of clinical trials?

If so, the North West Surgical Trials Centre is once again running its **free** afternoon workshop that is **ideal for your career development**, on.

Monday 29th January 2018, 12pm - 5pm

**Submit your research proposal for
informal review and constructive comment**

This **KEY EVENT** will feature inspiring talks from:

- **Jonathan Sheffield** - NIHR CRN Chief Executive Officer
- **Dion Morton** - Professor of Surgery and RCSEng Director - Coloproctology
- **Ian Chetter** - RCSEng Surgical Study Lead - Vascular
- **Richard Shaw** - NIHR CRN Lead for Surgical Oncology
- **Expert Trialists** - Head & Neck, Reconstruction, Obs & Gynae
- **Enthusiastic surgical researchers** like you who have achieved research funding with NWSTC assistance

This is a **FREE EVENT**, but booking is essential. Parking, lunch and refreshments are with our compliments. Venue is conveniently located for motorway and rail networks.

To book a place, email nwstc@liverpool.ac.uk
